

# Motorcycle Headlight Assembly

Motorcycle headlight assembly designed with a clear lens and reflector for optimal illumination. It includes mounting brackets and an electrical connector, ensuring easy installation for enhanced visibility and safety during nighttime riding.

## Product Overview

### High-Visibility Motorcycle Headlight

This motorcycle headlight assembly is engineered for reliable nighttime illumination and enhanced rider safety. Constructed with an AS glass lens and durable ABS housing, it offers a robust solution for standard motorcycle lighting needs. The assembly includes pre-installed mounting brackets and a standard electrical connector to facilitate a straightforward installation process.

## Technical Specifications

Operating Voltage	12 V
Power Consumption	25 W
Bulb Type	H4 straight bubble

## Materials & Construction

Lens Material	AS Glass
Housing Material	ABS Plastic

## Features

Key Features	Easy Installation, Reflector Design, Mounting Brackets Included, Enhanced Visibility
