

Motorcycle Lithium-Ion Starter Battery, 12.8V, 110 CCA

This lithium-ion starter battery is designed for motorcycles and other specialty vehicles. It features a voltage of 12.8V, a cold cranking amp (CCA) rating of 110 (5sec@25°C), and a watt-hour (Wh) capacity of 20.5.

Product Overview

High-Performance Lithium-Ion Power

This advanced lithium-ion starter battery is engineered specifically for motorcycles and specialty vehicles requiring reliable starting power. With a stable 12.8V output and a robust 110 CCA rating, it provides consistent performance across various operating conditions. Its lightweight design and efficient energy capacity make it an ideal upgrade for demanding vehicle applications.

Technical Specifications

Voltage	12.8 V
Cold Cranking Amps (CCA)	110 A
Energy Capacity	20.5 Wh
