

Motorcycle Magneto Ignition Coil

This motorcycle magneto coil is a vital component for the ignition system. It generates the necessary high voltage to ignite the spark plug, ensuring proper engine combustion.

Product Overview

Professional Ignition System Component

This high-quality magneto ignition coil is engineered to provide reliable performance for a wide range of powersports vehicles. Designed for durability and efficient heat dissipation, the unit features precision copper windings on a robust laminated iron core. It serves as an essential component for generating the high voltage required for optimal engine combustion, ensuring consistent ignition performance.

Compatibility & Application

Compatible Vehicle Types

Motorcycles, Scooters, Cubes, ATV, Dirt Bikes

Technical Specifications

Construction Materials

- Copper windings
- Laminated iron core
- Cast aluminum stator assembly

Installation Features

Wiring harness included • Multi-pin connector • Easy installation

Product Range

Available Engine Parts

- Magneto Rotator
- Magneto Stator
- Magneto Coil
- Starter Motor
- Spark Plug
