

# Motorcycle MP3 Audio Player with LED Screen

Motorcycle MP3 audio player designed for audio entertainment on the road. It features a mode/power control, LED screen, and multiple input options including TF and USB.

## ADDITIONAL IMAGES

## Product Overview

### Advanced Motorcycle Audio Entertainment System

This versatile motorcycle audio system combines entertainment and utility, offering seamless Bluetooth connectivity and intuitive mobile app control. Designed for rugged environments, it features a waterproof construction and a wide operating temperature range to ensure consistent performance in various weather conditions. With dual 15W speakers and an integrated LED display, this system provides a high-quality audio experience while enhancing the aesthetic appeal of your motorcycle.

## Audio Performance

### Audio Specifications

**15 W**

Output Power per Channel

**20 Hz**

Min Frequency Response

**20 kHz**

Max Frequency Response

## Features & Connectivity

### Key Features

Bluetooth, Mobile App Control, Alarm Function, Waterproof, Line Control, USB Support, TF Card Support, FM Radio

### Bluetooth Range

6 m

## Electrical Specifications

### Power Requirements

Parameter	Value
Operating Voltage	DC-12V
Mobile Charging Current	800mA
Standby Power Consumption	16mA

## Physical & Environmental

### Physical Dimensions

Dimension	Measurement
Length	210
Height	58
Width	60

Operating Temperature	-30 to +60°C
