

Motorcycle Oil Reservoir

This black plastic oil reservoir is designed for motorcycles. It includes a screw-on cap and protruding tubes for connecting to the oiling system.

Product Overview

Compact Motorcycle Oil Storage Solution

This motorcycle oil reservoir is engineered as a compact and durable component for motorcycle oiling systems. Featuring an irregular, space-efficient shape, it is designed to integrate seamlessly within motorcycle frames. The unit includes a secure screw-on cap for easy maintenance and dual connection points for reliable fluid transfer.

Physical Attributes

Material	Black Plastic
Key Design Features	Screw-on Cap, Ventilation Opening, Dual Connection Ports, Compact Shape
Connection Ports	2 ports
