

Motorcycle Oil Reservoir

Durable oil reservoir designed for motorcycle lubrication systems, ensuring consistent engine performance. It is constructed from high-quality, impact-resistant plastic and features a secure, threaded cap.

Product Overview

Reliable Lubrication System

This durable oil reservoir is engineered to ensure consistent lubrication for optimal engine performance. Constructed from high-quality, impact-resistant plastic, it offers long-lasting reliability in demanding conditions. The compact design allows for space-saving installation, while the secure, threaded cap ensures leak-proof operation and easy maintenance.

Technical Specifications

Material	Impact-resistant plastic
Design Features	Compact, Leak-proof, Threaded Cap

Compatibility

Compatible Model	Little Hummer motorcycle
------------------	--------------------------

Performance

Primary Function	Consistent engine lubrication
------------------	-------------------------------
