

Motorcycle Rear Luggage Box

This motorcycle tail box mounts behind the seat, providing additional storage capacity. The luggage box is designed for urban commuting and touring.

Overview

Urban Commuter Luggage Solution

This rear luggage box is designed specifically for urban scooters and small-displacement motorcycles, providing essential storage space for daily commuting needs. Its sleek, aerodynamic design integrates seamlessly with modern scooter aesthetics, such as the ZSE 50 model. Built for durability and convenience, it offers a secure mounting solution behind the seat to keep your belongings protected while on the road.
