

Motorcycle Rear Shock Absorber

This motorcycle rear shock absorber is designed for the ET model. It features mounting holes of $\varnothing 12$ and a center distance of 290 ± 2.0 .

Product Overview

High-Performance Rear Suspension

This rear shock absorber is engineered for riders seeking enhanced vehicle stability and superior ride comfort. Featuring a robust coil spring and a precision hydraulic damping system, it offers consistent performance across diverse driving conditions. Its durable construction ensures long-lasting reliability, making it an excellent choice for suspension upgrades or necessary component replacements.

Key Features

Primary Components

- Robust coil spring
- Hydraulic damping system
- Durable wear-resistant construction

Application

Recommended Use

Replacement, Performance Upgrade, Motorcycle Suspension
