

Motorcycle Rear Shock Absorber

This motorcycle rear shock absorber is designed for enhanced stability and ride comfort. It features mounting holes of ± 12 and ± 10 , with a center distance of 335 ± 2.0 .

Product Overview

High-Performance Rear Suspension

This high-performance rear shock absorber is engineered to significantly enhance vehicle stability and overall ride comfort. Featuring a robust spring and an advanced hydraulic damping system, it provides superior control and responsiveness across varying road conditions. It serves as an ideal replacement for worn or damaged components, offering excellent resistance to wear and tear for an extended suspension lifespan.
