

Motorcycle Rear Shock Absorber

This motorcycle rear shock absorber enhances vehicle stability and ride comfort. It has a 310mm center distance and mounting holes of $\text{Æ}12$ and $\text{Æ}10.1$.

Product Overview

High-Performance Rear Suspension

These high-performance rear shock absorbers are meticulously engineered to provide enhanced vehicle stability and superior ride comfort. Featuring a durable construction with a polished chrome finish, they offer excellent damping and control for a wide range of driving conditions. The robust coil spring design ensures optimal suspension performance, making these units an ideal choice for replacing worn or damaged components to achieve improved handling.

Technical Specifications

Suspension Design	Coil spring shock absorber
Surface Finish	Chrome

Features

Ideal Use Case

Replacement Part • Vehicle Upgrade

Performance Benefits	Enhanced Stability, Improved Handling, Superior Damping, Ride Comfort
