

Motorcycle Rear Shock Absorber (310mm)

This motorcycle rear shock absorber has a 310mm center distance. It features mounting holes of $\text{Æ}12$ and an under-hole of $\text{Æ}10.1$.

Product Overview

High-Performance Rear Suspension

This rear shock absorber is engineered to provide superior vehicle stability and enhanced ride comfort across diverse road surfaces. Featuring a robust spring and damping system, it effectively absorbs vibrations and shocks to deliver a smoother driving experience. The durable construction ensures long-lasting reliability and improved handling control for demanding applications.

Technical Specifications

Mounting Length	310 mm
Application Compatibility	Motorcycle, General Automotive

Performance Features

Key Performance Benefits

- Optimized vehicle stability
- Advanced vibration absorption
- Improved handling and control
- Durable construction for longevity
