

Motorcycle Rear Shock Absorber

This motorcycle rear shock absorber has a 10.1mm mounting hole. It has a center distance of 344mm.

Overview

High-Performance Rear Suspension

This rear shock absorber is engineered to significantly enhance vehicle stability and overall ride comfort. Featuring a robust coil spring combined with a precise hydraulic damping system, the unit is built for superior control and responsiveness. It effectively reduces road vibrations and improves handling precision, making it an essential upgrade for maintaining vehicle performance and longevity.

Technical Specifications

Damping Type	Hydraulic Damping
Component Type	Coil Spring Rear Shock

Performance

Performance Benefits	Enhanced Stability, Vibration Reduction, Improved Handling, Ride Comfort
