

Motorcycle Shock Absorber with Adjustable Damping

This motorcycle shock absorber provides superior handling and ride comfort. It features adjustable damping and durable construction for long-lasting reliability.

Overview

High-Performance Suspension

This motorcycle shock absorber is engineered for superior handling and enhanced ride comfort. Featuring adjustable damping and a remote reservoir, it ensures consistent performance even under demanding riding conditions. Its durable construction is designed for long-lasting reliability, making it an ideal upgrade for various motorcycle applications.

Technical Specifications

Model Number	CY-9102
Available Lengths	250mm, 280mm

Key Features

Performance Features

- Adjustable damping
- Remote reservoir for consistent performance
- Durable construction
- Enhanced ride comfort

Key Metrics

250 mm

Minimum Length

280 mm

Maximum Length
