

Motorcycle Side Cover Fairing

This motorcycle side cover fairing is made from a composite material. It is designed to fit the contours of the motorcycle frame, providing protection and enhancing its appearance.

Product Overview

Premium Motorcycle Side Cover Fairing

This motorcycle side cover fairing is designed as a precise replacement part, offering both aesthetic enhancement and structural protection for your motorcycle frame. Engineered with a complex, contoured shape, it ensures a seamless fit for the WY125 model. Crafted from durable composite materials, this component provides a sleek silver finish that integrates perfectly with the bike's design.
