

Motorcycle Side Cover Fairing

This motorcycle side cover fairing is made of durable plastic. It protects the motorcycle's internal components, such as the engine and electrical system, from damage.

Product Overview

Premium Side Cover Fairing for WY125

This high-quality side cover fairing is engineered specifically for the WY125 motorcycle model. Crafted from durable, impact-resistant plastic, it provides a robust shield for critical internal components, including the engine and electrical systems, against road debris and environmental elements. Designed for a precise fit, this silver-finished component seamlessly integrates with your motorcycle's aesthetic while ensuring long-lasting performance.
