Product Overview

High-Performance Ignition Solution

This high-performance spark plug is engineered for optimal ignition and engine efficiency in both motorcycles and cars. Featuring a durable construction with a copper core, it is designed to provide consistent spark and improved combustion under various operating conditions. This component contributes to enhanced fuel economy, reduced emissions, and reliable protection for your engine and catalytic converter.

Compatibility & Standards

Interchangeable With

- NGK
- DENSO
- CHAMPION
- BOSCH

Compatibility

Motorcycle, Car, Universal Fit
