Product Overview

High-Performance Motorcycle Spark Plugs

These high-performance spark plugs are engineered for optimal combustion, improved fuel efficiency, and reliable ignition in various motorcycle engines. Designed with a durable construction, they ensure extended service life and consistent performance under diverse operating conditions. Our range includes multiple advanced electrode configurations to suit specific engine requirements and performance needs.

Technical Specifications

Core Material

Copper Core • Silver Fuel

Available Electrode Types

Iridium-platinum, Multi-ground electrode, V-cut center-electrode, Surface-sparking, Nickel copper, V-groove center-electrode

Compatibility

Compatible with standard models from major global spark plug manufacturers.

Quality & Service

Service Standards

10 PCS

Pack Size

Quality Assurance

Quality grades can be customized according to specific buyer requirements.

Delivery

Yes
