

Motorcycle Speedometer with Fuel Level Indicator

This motorcycle speedometer displays speed up to 160 km/h and includes a fuel level indicator. It features indicators for gear position, headlight, and turn signals, along with an odometer.

Overview

TM110-2 Multifunction Meter

The TM110-2 motorcycle speedometer is a versatile instrument designed for precise monitoring of speed and fuel status. Featuring a clear analog-style display, it enables riders to track speeds up to 160 km/h and monitor fuel levels from empty to full. Integrated indicators for gear position and signaling systems ensure reliable operational feedback for professional and maintenance applications.
