

Motorcycle Spoked Front Wheel Assembly

Complete front wheel assembly designed for motorcycles. It features a spoked wheel with a silver-finished rim and hub, ensuring structural integrity and reliable performance.

Product Overview

High-Performance Spoked Front Wheel

This complete front wheel assembly is engineered for motorcycle applications, featuring a classic spoked design that ensures optimal load distribution and structural integrity. The unit comes fully equipped with a silver-finished rim and hub, complete with pre-installed bearings for smooth rotation and reliable performance. Designed for durability and ease of installation, this assembly is an ideal replacement or upgrade for standard front wheel setups.
