

Motorcycle Tail Light Assembly with Chrome Base

This is a motorcycle tail light assembly with a translucent red lens. The assembly features a chrome-finished metal base and includes a wiring harness.

Product Overview

Professional Motorcycle Tail Light Assembly

This motorcycle tail light assembly is designed for reliable performance and aesthetic appeal, featuring a high-quality chrome-finished metal base. The unit includes a durable translucent red lens with horizontal ribbing and a dedicated clear section for license plate or reverse illumination. It comes pre-wired with a standard harness, making it an excellent choice for motorcycle customization projects or as a direct replacement for damaged lighting components.
