

Motorcycle Tail Light Assembly with Wire Harness

This motorcycle tail light assembly features a clear lens and red internal reflectors. The assembly includes a black wire harness for electrical connection.

Product Overview

High-Visibility Tail Light Assembly

This motorcycle tail light assembly is engineered for durability and reliable performance, featuring a clear outer lens paired with high-visibility red internal reflectors. Designed as a direct replacement or upgrade component, it ensures consistent illumination and safety on the road. The assembly comes complete with an integrated wire harness for straightforward electrical installation.
