

Motorcycle Tail Light Assembly

This is a motorcycle tail light assembly with integrated turn signals. It provides rear indication and safety lighting.

Product Overview

Professional Motorcycle Tail Light Assembly

This rectangular motorcycle tail light assembly is designed to provide reliable rear signaling and safety lighting for a wide range of motorcycles. Featuring a distinct combination of red brake light and amber turn signal lenses, it ensures clear visibility for following traffic. The unit is built with a durable chrome or silver-colored base, offering both aesthetic appeal and resistance to environmental elements.
