

Motorcycle Tail Light with License Plate Bracket

This motorcycle tail light features a dual-light design integrated with a license plate bracket. Constructed from durable materials, it provides enhanced visibility and safety for motorcycle riders.

Product Overview

Versatile Motorcycle Tail Light Assembly

This high-quality motorcycle tail light features a robust dual-light design integrated with a secure license plate bracket. Built for longevity and enhanced rider safety, the assembly provides superior visibility in various lighting conditions. It is designed for straightforward installation, making it an excellent solution for both custom motorcycle builds and replacement of damaged original equipment.

Technical Specifications

Model Number	TL-GJ-023-1
Installation	Integrated Wiring, Easy Installation, Compatible with various models

Compliance and Safety

Regulatory Status

License Plate Compliant

Safety Features

- Enhanced visibility for increased rider safety
- Durable construction for long-term reliability
- Secure license plate mounting
