

Motorcycle Tyre - YZ006

This high-performance motorcycle tyre is designed for optimal grip and handling in diverse conditions. It features a durable rubber compound for extended wear and resistance to abrasion.

Product Overview

High-Performance Motorcycle Tyre YZ006

The YZ006 motorcycle tyre is engineered for optimal grip and handling across diverse riding conditions. Featuring a durable rubber compound, it offers extended wear life and superior resistance to abrasion. Its advanced tread pattern ensures efficient water evacuation, providing enhanced traction on both wet and dry road surfaces.

Performance Features

Key Performance Benefits

- Optimized grip and handling
- Durable rubber compound for extended wear
- High abrasion resistance
- Efficient water evacuation tread pattern
- Enhanced wet and dry traction
- Balanced comfort and stability

Application Focus

Wet Surface Performance, Dry Surface Performance, High Durability, Enhanced Stability
