Product Overview

Heavy-Duty Lifting Solution

This motorized screw jack is engineered for demanding heavy-lifting applications, offering a robust and reliable solution for industrial and agricultural environments. Designed for precision and ease of use, the unit features a durable forged steel construction capable of supporting substantial loads. The motorized mechanism enhances operational efficiency, reducing operator fatigue while ensuring stable and secure lifting performance.

Technical Specifications

Maximum Capacity

50 T

Rated Capacity

Operating Pressures

- Rated pressure: 31.2 Mpa
- Air pressure: 0.8-1.2 Mpa

Physical Dimensions

- Min Height: 200 mm
- Max Height: 320 mm
- Extension height: 40 mm / 75 mm
- Net Weight: 105 kg

Model Performance Data

Model	Capacity (T)	Test Load (KN)	Lifting Dist (mm)
QJC-1.5A	1.5	18.4	350
QJC-3A	3	36.8	350
QJC-5A	5	61.3	300
QJC-10A	10	122.5	300
QJC-16A	16	196	400
QJC-20A	20	245	400
