Product Overview

High-Precision Motorized Tape Feeder

This motorized tape feeder is engineered for seamless integration with high-speed automated placement machinery. Designed to handle 12mm and 16mm tape widths, it ensures consistent and reliable component feeding for complex assembly processes. Built for longevity and high performance, this unit maintains precision even in continuous operation environments.

Technical Specifications

Primary Part Numbers

Component	Part ID
12mm Feeder	KHJ-MC200-000
16mm Feeder	KHJ-MC300-000

Supported Tape Widths	12mm, 16mm
Operating Voltage	5 V
Manufacturing Origin	Japan

Compatibility

Compatible Machine Series

- YS12
- YS24
- YS88
- YS100
