

Mountain Bicycle with Front Suspension

This mountain bicycle is designed for off-road cycling. It features a front suspension fork to absorb shocks and provide a smoother ride on uneven terrain.

Product Overview

Rugged Mountain Performance

This mountain bicycle is expertly engineered for off-road cycling and demanding terrain. It features a robust aluminum alloy frame that balances lightweight agility with high-strength durability. Equipped with a responsive front suspension fork, it effectively absorbs shocks to ensure a smoother, more controlled ride on uneven paths.

Technical Specifications
