Overview

Professional Mounted Disc Plough

This mounted disc plough is specifically engineered for four-wheel tractors, offering superior performance in challenging soil conditions. Its design effectively manages land containing weeds, stems, and frictional soil with debris, preventing blockages or grass winding. The implement features a robust round frame construction, ensuring durability and consistent soil turning with minimal resistance.

Min Power Required

Disc Configuration

Feature	Specification
Number of Discs	3
Disc Diameter	66 cm
Mounting Type	Three-point linkage

Features & Benefits

Key Operational Advantages

- Anti-winding design prevents grass accumulation
- Non-blocking operation in heavy soil
- Effective at cutting stems and roots
- Reduced working resistance for fuel efficiency
- Robust round pipe frame construction

Suitable Soil Conditions

Sticky heavy clay, High-yield manure land, Wheat stubble fields, Rice stubble fields, Fallow land, Terraced plots
