

Mounting Bracket for Microwave Oven or Induction Cooker

This metal mounting bracket is designed for securing a microwave oven or induction cooker. It features a central opening for ventilation and mounting holes for attachment to a chassis or support structure.

Product Overview

Professional Mounting Solution

This durable, stamped metal mounting bracket is engineered for the secure installation of microwave ovens or induction cookers. Featuring a robust design with four extended arms and precise mounting holes, it ensures stable attachment to your chassis or support structure. The component includes a central aperture to facilitate proper ventilation or component access, making it an essential part for appliance assembly and maintenance.

Physical Characteristics

Material	Stamped Metal
Finish/Color	Copper-colored
Design Features	Ventilation Aperture, 4-Arm Mounting, Stamped Construction

Identification

Part Number	3090526
-------------	---------

Compatibility

Compatible Appliances

- Microwave Oven
- Induction Cooker
