

MR16 Halogen Lamp 12V 50mm

This MR16 lamp is a multifaceted reflector type with a 50mm diameter and 12V operating voltage. Its focused beam makes it suitable for accent and task lighting applications.

Product Overview

MR16 Halogen Lamp Overview

The MR16 is a high-quality multifaceted reflector lamp designed for precise accent and task lighting. With a standard 50mm diameter and 12V operation, it delivers focused illumination ideal for retail displays, residential environments, and studio setups. This lamp requires a compatible transformer or power supply to ensure optimal performance and longevity.
