

Mud Pump Liner for UNB600 Series

This mud pump liner is designed for UNB600 series mud pumps. It is constructed from high-strength alloy steel for resistance to wear and corrosion.

Product Overview

High-Performance Mud Pump Liner

This mud pump liner is engineered for the UNB600 series and similar demanding drilling applications. Crafted from high-strength alloy steel, it provides superior resistance to abrasion and corrosion, ensuring durability in harsh environments. The precision-honed inner surface minimizes friction and enhances sealing, which helps maximize pump efficiency and significantly reduces maintenance downtime.

Technical Details

Material Composition

High-strength alloy steel

Compatibility

Compatible Pump Models

- UNB600
- UNBT-600
- UNBT-950
- UNBT-1180L
- UNBT-950A
- UBT-400
- BT-600
- UB-590
- 8T-650
- 8T310
- 8T650-01

Key Features

Core Benefits

High Wear Resistance, Abrasion Resistant, Corrosion Protected, Precision Honed Surface, Optimized Sealing
