

# Mud Pump Liner

This mud pump liner is made of premium materials. It is exchangeable with OEM products and meets or exceeds API-7K standards.

## Product Overview

### High-Performance Mud Pump Liners

These mud pump liners are engineered to meet or exceed API-7K standards, ensuring reliable performance in demanding drilling environments. Available in both bi-metal and ceramic zirconia configurations, they feature high-strength alloy steel outer hulls for durability and superior resistance to heat and corrosion. These components are fully exchangeable with OEM products, making them an ideal choice for maintenance and operational efficiency.

## Technical Specifications

### Available Liner Types

- Bi-metal Liners
- Ceramic Zirconia Liners

### Key Material Features

- High strength alloy steel outer hull
- Ceramic inner sleeve
- Heat resistant
- Corrosion resistant

### Compliance Standards

API-7K

## Compatibility

### Compatibility

OEM Exchangeable

## Accessories

### Included Seals

- Rubber liner seals
- Urethane liner seals
