

Mud Pump Replacement Part Kit

These replacement parts are designed for API mud pumps. The components ensure optimal pump performance and longevity in drilling environments.

Overview

High-Performance Mud Pump Components

These replacement parts are engineered to meet or exceed API-7K standards, ensuring reliability and durability in demanding drilling environments. Designed for seamless interchangeability with major OEM mud pump systems, these components maintain optimal pump performance and longevity. This kit covers essential sealing and valve elements, making it an ideal solution for maintenance and repair operations.

Compliance & Quality

Standards Compliance

API-7K, OEM Interchangeable

Compatibility

Supported Pump Makes

- NATIONAL
- EMSCO
- IDECO
- GARDNER DENVER
- OILWELL

Supported Pump Models

Make	Models
NATIONAL	7P-50, 8P-80, 9P-100, 10P-130, 12P-160, 14P-220
EMSCO	F-350/500/650/800/1000, FB-1300/1600
IDECO	T-500/800/1000/1300/1600
GARDNER DENVER	PAH, PZ-7/8/9/10/11
OILWELL	A-850-PT, A-1100-PT, A-1400-PT, A-1700-PT

Components

Included Components

- Pulsation dampener bladders
- Valve seats
- Valve guides
- O-rings
- Gaskets
