

Multi-Color Flexible LED Strip Light

This LED strip light features multi-colored LEDs, offering a vibrant and customizable lighting solution. The strip is flexible and can be easily mounted with its adhesive backing.

Product Overview

Versatile LED Illumination

This flexible LED strip light offers a vibrant and customizable lighting solution suitable for various decorative and accent lighting projects. Designed for portability, the strip is powered by a convenient battery pack, allowing for easy placement without the need for mains electricity. Its flexible design and adhesive backing ensure a simple installation process for DIY applications.

Technical Specifications

LED Type	2835 SMD
Strip Length	1 m
LED Density	30 leds/m
Total LED Count	90

Power and Connection

Operating Voltage	4.5 V
Power Source	3x AA Batteries
Lead Wire Length	30 cm

Features

Key Features	Multi-color, Flexible, Battery Powered, Portable, Adhesive Backing
