

Multi-Color LED Light Bulbs with Remote Control

These LED light bulbs provide a range of colors that can be controlled with a remote. The bulbs have a standard screw base and a finned heat sink for cooling.

Product Overview

Versatile Multi-Color LED Lighting

These multi-color LED light bulbs offer a flexible and energy-efficient lighting solution suitable for a variety of environments. Designed with a standard screw base for easy installation, they feature a finned heat sink for enhanced thermal management and longevity. The included remote control allows for seamless adjustment of lighting colors, making them an ideal choice for customizable ambiance and functional illumination.
