Product Overview

Professional Grade Multi-Conductor RVV Cable

This multi-conductor RVV cable is engineered for reliable signal transmission in audio, video, and security system applications. Featuring a durable, flexible black outer jacket, it is designed to withstand the rigors of various electrical installations. The internal wiring includes color-coded conductors for simplified identification and efficient connectivity.

Technical Specifications

Conductor Cross-Section Area

- 1.0mm²
- 1.5mm²
- 2.0mm²
- 2.5mm²
- 4.0mm²

Conductor Insulation Colors

Blue • Brown • Green/Yellow

Cable Type

RVV (Flexible Electric Security Copper Wire)

Available Core Counts

2-Core, 4-Core

Applications

Primary Applications

- Audio setups
- Video transmission
- Security systems
- Low-voltage electrical installations

Key Features

High Flexibility • Durable Outer Jacket • Reliable Signal Transmission • Easy Connection
