

Multi-Conductor Communication Cable

This multi-conductor communication cable is suitable for data transmission and control applications. It features various colored insulated wires encased in a protective outer jacket.

Product Overview

High-Performance Multi-Conductor Cable

This multi-conductor communication cable is engineered for reliable data transmission and precise control applications. Featuring a durable black outer jacket and clearly color-coded internal wiring, it is designed to withstand the demands of professional installation environments. This cable provides a versatile solution for complex communication systems requiring consistent signal integrity.

Technical Specifications

Jacket Color

Black

Internal Wiring

- Multi-colored insulation
- Distinct wire identification

Construction Type

Multi-conductor

Primary Applications

Data Transmission, Control Systems, Communication Networks
