

# Multi-Cylinder Air Compressor for Marine Applications

This heavy-duty air compressor is designed for continuous operation in marine settings. Its multi-cylinder configuration ensures high air delivery rates for various shipboard applications.

## Product Overview

### Marine-Grade Multi-Cylinder Air Compressors

These professional-grade, multi-cylinder air compressors are specifically engineered for heavy-duty marine applications. Designed for reliability in challenging maritime environments, these units provide high-capacity air delivery essential for onboard systems. Each unit features robust, corrosion-resistant construction to ensure sustained operational performance and consistent pressure output.

## Technical Specifications

### Model Inventory Table

| Model | Capacity              | Pressure               | Power | RPM  |
|-------|-----------------------|------------------------|-------|------|
| SC20N | 163 m <sup>3</sup> /h | 25 bar                 | 30 kW | 1200 |
| SC25N | -                     | 30 kgf/cm <sup>2</sup> | 30 PS | 900  |
| SC30N | 191 m <sup>3</sup> /h | 30 bar                 | 37 kW | 900  |
| SC60N | 368 m <sup>3</sup> /h | 30 bar                 | 60 kW | 900  |

### Performance Highlights

**368 m<sup>3</sup>/h**

Max Capacity

**30 bar**

Max Pressure

**60 kW**

Max Power

### Electrical Requirements

440V, 60Hz
