

Multi-Door Refrigerator with Silent Operation

This multi-door refrigerator is designed for silent operation and energy efficiency. It utilizes an ultra-efficient compressor and R600a refrigerant and features durable metal shelves and adjustable compartments.

Product Overview

High-Performance Multi-Door Refrigerator

This modern multi-door refrigerator is engineered for professional environments requiring silent operation and consistent performance. Featuring an ultra-efficient compressor and eco-friendly R600a refrigerant, it combines energy efficiency with robust cooling capabilities. The unit is designed to adapt to diverse voltage and climate conditions, ensuring reliability in various operational settings.

Technical Specifications

Refrigerant	R600a
Key Operational Features	Silent Operation, Wide Voltage Range, Climate Adaptive

Design & Build

Interior Components

- Durable metal shelves
- Adjustable storage compartments
- Mobile wine/food rack

Finish	Silver Finish
