

Multi-Door Refrigerator with Stainless Steel Finish

This multi-door refrigerator features a stainless steel finish. It includes a top section with two doors, a middle drawer, and a bottom freezer compartment.

Overview

Professional Multi-Door Refrigeration

This high-capacity multi-door refrigerator features a sleek stainless steel finish designed for modern commercial and residential use. The unit is engineered with a versatile three-tier layout, including a spacious dual-door top section, a dedicated middle drawer, and a bottom freezer compartment. It provides a total effective capacity of 615 liters, balancing high-performance fresh food storage with powerful freezing capabilities.
