Product Overview

Versatile Kitchen Processing

This multi-function food chopper and meat grinder is designed to streamline food preparation tasks in any professional or home kitchen. Featuring a robust motor with two speed settings and a pulse function, it offers precise control for everything from delicate chopping to heavy-duty meat grinding. Its compact footprint, combined with durable stainless steel blades and an 800ml capacity jar, makes it an efficient and reliable tool for consistent results.

Technical Specifications

Power Output	500 W
Voltage	220-240V
Frequency	50/60Hz

Performance & Features

Speed Control

- Low speed (Dicing)
- High speed (Chopping)
- Pulse function

Safety Systems

Inset safety system, Overheating protection, Non-slip silicone pad

Design & Materials

Blade Assembly

Function	Blade Count
Chopper	4
Dicer	3

Housing Material | ABS Plastic

Jar Capacity | 800 ml
