Product Overview

Versatile Garden Maintenance Solution

This multi-functional garden power tool is designed for efficient lawn and garden maintenance, featuring a high-quality brushless motor for reliable performance. Its ergonomic design includes a rear-mounted battery for improved balance and a split-shaft construction that facilitates easy transport and storage. With cordless operation, this tool offers professional-grade maneuverability for trimming, cutting, and pruning tasks.

Technical Specifications

Scissors Type

Dual

Rated Voltage	36 V
Battery Capacity	4.0 Ah, 5.0 Ah
No-load Speed	0-6400/7400 r/min
Pipe Diameter	26 mm
Cutting Diameter	360 mm
Bar Size	10 inch

Key Features

Performance Highlights

7400 r/min

Max Speed

360 mm

Cutting Width

Design Advantages

- Brushless motor technology
- Fast battery charging capability
- Rear-mounted battery for optimal balance
- Split-shaft design for storage and transport
- Low-noise operation
