

Multi-Function Kitchen Appliance for Blending, Coffee Making, and Juicing

This kitchen appliance is designed for blending, coffee making, and juicing. It features a robust motor base with variable speed control and durable containers.

Product Overview

Versatile Culinary Performance

This high-performance kitchen appliance is engineered for versatility, seamlessly combining blending, coffee making, and juicing capabilities into a single robust unit. Designed for both home and professional environments, it features a heavy-duty motor base with precise variable speed control to handle diverse culinary tasks. Its durable construction ensures reliability, making it an essential tool for high-volume food and beverage preparation.

Technical Specifications

Construction

Heavy-Duty • Professional Grade

Supported Functions

Blending, Coffee Grinding, Juicing

Control Interface

Variable speed control
