

Multi-Functional Vacuum Cleaner with Mite Removal and Floor Washing Capabilities

This versatile cleaning appliance functions as a vacuum cleaner, mite removal machine, cloth art cleaning machine, and floor washer. It features a digital display and a 5-stage filtration system.

Product Overview

Versatile Multi-Function Cleaning Solution

The T10 is a comprehensive cleaning appliance engineered for diverse household maintenance tasks. It functions as a powerful vacuum, specialized mite removal tool, delicate cloth art cleaner, and efficient hard-floor washer. Designed for high cost-performance, this global-edition appliance features advanced brushless motor technology and a user-friendly LED interface.

Shenzhen Tute Intelligent Technology Co. Ltd. <i>Insist on innovation that users can perceive, and insist on doing the ultimate cost performance.</i>	

5-stage in-depth filtration system with 99.3% efficiency for cleaner air output.

Physical Specifications

- Dust box capacity: 500ml
- Noise level: 82±1.5dba
- Weight: 2-3 kg
- Brushless motor with 3-level speed regulation

Filtration System

5-stage filtration, Detachable dust box, Removable filter, One-key rubbish removal

Battery & Charging

Battery Pack Information

- Specification: 7S1P 2500mAh
- Charging time: 3.5H
- Detachable battery pack
- Charging options: On rack or separate battery charging

Accessories

Included Brushes

Carpet brush • 2-in-1 brush • 2-in-1 flat brush
