

Multi-Head Combination Weigher

This combination weigher is designed for high-speed weighing of various products including granules, slices, and irregular shapes. It is also suitable for weighing small metal and plastic parts.

Overview

High-Speed Precision Weighing Solution

This 14-head combination weigher is engineered for high-speed, accurate weighing of granule, slice, roll, and irregular products such as snacks, coffee beans, nuts, and frozen foods. It features advanced load cell level sensor control and automated feeding adjustments to ensure smooth product flow and high accuracy. Designed for versatility, the system supports multiple languages and offers selectable high-accuracy or high-speed modes to meet diverse production requirements.

Performance Metrics

Max Weighing Speed

110 WPM

Max Speed

Weighing Range	1500 g
Weighing Accuracy	0.1-1.5g

Technical Specifications

Hopper Volume	2500 ml
Power Supply	220V / 1500W / 50/60HZ / 10A
Packing Dimensions	1700 (L) x 1120 (W) x 1100 (H) mm
Gross Weight	490 KG

Features

Supported Languages

- Spanish
- Korean
- German
- French
- Arabic

Available Options

Dimple Plate • Timing Hopper • Printer • Rotary Top Cone

Suitable Products	Candy, Seeds, Jelly, Fries, Coffee Beans, Peanuts, Puffy Food, Biscuits, Chocolate, Nuts, Yogurt, Pet Food, Frozen Foods, Metal Parts, Plastic Parts
Control Interface	10.4" LCD Touch Screen
