

Multi-Head Heating Torch with Adjustable Flame

This heating torch features adjustable flame control. Its durable metal construction, ergonomic handle, and flexible hose allow for versatile use in various heating applications.

Product Overview

Professional Multi-Head Heating Torch

This multi-head heating torch is engineered for heavy-duty industrial heating applications. Featuring a robust 4-head design with 50mm diameter nozzles, it provides consistent and powerful heat output. The tool is designed for versatility and durability, making it an essential component for professional heating tasks.

Technical Specifications

Nozzle Diameter	50 mm
Number of Heads	4
Model Number	HT1071
Torch Type	Multi-Head Heating Torch

Features

Key Features	Adjustable Flame, Durable Metal Construction, Ergonomic Handle, Flexible Hose
