

Multi-Layer Filtration Air Purifier

This air purifier features a multi-layered filtration system to remove dust, pollen, smoke, and odors. It is equipped with a digital display for monitoring air quality and adjusting settings.

Product Overview

Professional-Grade Air Purification

This floor-standing air purifier is engineered with a robust multi-layered filtration system designed to effectively remove dust, pollen, smoke, and odors from the environment. Featuring a sleek, modern aesthetic with a distinctive floral front panel, it integrates seamlessly into professional office spaces and large rooms. Users can easily monitor air quality and adjust settings via the intuitive digital display.
