Product Overview

Heavy-Duty Suspension Solutions

Engineered for superior load-bearing performance, this multi-leaf trailer spring is constructed from premium-grade 60Si2Mn steel. Our manufacturing process utilizes advanced CNC cutting, automatic eye rolling, and precision heat treatment to ensure rigorous dimensional tolerances. This product is trusted globally for its durability and consistent performance across diverse heavy-duty trailer applications.

Technical Specifications

Standard Sizes

- 75x13 mm
- 90x16 mm
- 100x12 mm

Material Grade

60Si2Mn

Manufacturing Precision

Key Manufacturing Tolerances

1 mm

Length Tolerance

0.2 mm

Hole Position Tolerance

0.5 mm

Thickness Tolerance

Quality and Certification

Quality Standards

ISO9001-2008, TS16919

Export Reach

Recognized by customers in Germany, France, Poland, Thailand, Vietnam, Indonesia, Australia, Jordan, Saudi Arabia, South Africa, Kenya, Tanzania, Canada, USA, Mexico, Argentina, and Guatemala.
