Overview

Reliable Power Distribution

This multi-outlet extension socket is engineered for durability and safety in home, office, and workshop environments. Constructed with high-quality, environmentally friendly ABS material and all-copper internal wiring, it ensures stable and efficient power delivery. Equipped with silver contact points and safety shutters, it provides a secure solution for connecting multiple devices simultaneously.

Electrical Specifications

Maximum Power Capacity

3000 W
Max Power

Internal Wiring	3 x 1mm all-copper wire
-----------------	-------------------------

Contact Material	Silver
------------------	--------

Construction & Design

Housing Material	Environmental protection ABS
------------------	------------------------------

Plug Type	Round European head (copper, half-hollow)
-----------	---

Safety & Features

Warranty
2-Year Warranty

Safety Features	Safety Shutters, Overload Protection, Short Circuit Prevention, Grounding Pins
