Overview

Professional Multi-Purpose Harvesting Shears

These premium stainless steel scissors are engineered for precision cutting across a wide range of applications, from delicate garden pruning to heavy-duty industrial tasks. Featuring ultra-fine polishing technology and a high HRC rating, the blades maintain exceptional sharpness and abrasion resistance over long-term use. The ergonomic design combined with integrated safety features ensures maximum comfort and secure storage for professional users.

Technical Specifications

Key Dimensions

190 mm
Overall Length

55 mm
Blade Length

3 mm
Blade Thickness

Material & Durability

Blade Material	Stainless Steel with ultra-fine polishing
Hardness (HRC)	53-58
Handle Material	PP (Polypropylene) with soft non-slip covers

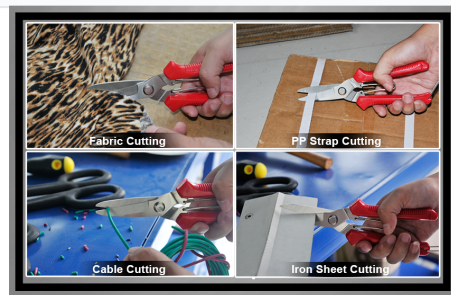

Design Features

Safety & Storage

- Safety open/close clip at handle end
- Integrated storage hook
- High clamping force external tension spring

Blade Features	Jagged Blade, Anti-Slip, Long Reach, Precision Tip
